## ARMIES ON VERGE OF GREAT BATTLE

Lines Are Being Formed By  
Japanese and Russians.

### OYAMA'S PLANS NOT KNOWN

General Linevitch, it is reported, is ready to accept a decisive battle. Japanese drive Russians northward other war news.

Gunshu Pass, May 22.—103 miles north of Tie Pass, Manchuria.—A general engagement is imminent. Field Marshal Oyama is deploying heavy forces against General Linevitch's left and is contracting his troops along the center, but his base is opposite the Russian right. It is not yet clear which wing is making a demonstration and which will deliver the main blow. It is evident from Linevitch's preparations that he intends to accept a decisive battle.

**Russians Attack Field Hospital.**  
Tokio, May 20.—7 p. m.—It was announced this evening from the headquarters of the Japanese armies in the field that three Russian columns of mixed forces advanced southward May 18 to the vicinity of the railroad. The Japanese engaged them and drove the Russians northward. Simultaneously 500 Russian cavalry attacked a Japanese field hospital at Kangpin on the right bank of the Liao river. Japanese artillery and infantry dispersed the attacking cavalrymen inflicting heavy loss upon them.

**Land Battle Imminent.**  
New York, May 22.—All news from Manchuria indicates the imminence of a battle according to the views of the Times' Tokyo correspondent. The Russians occupy a line 42 miles in length, strongly entrenched.  
The Japanese are advancing in three columns. The Russian position is at Halling, where General Matorloff is in command.

**To Enforce Neutrality.**  
Saigon, May 22.—Admiral DeJonquiere, the French naval commander, sailed from here today on the cruiser Gulchen. His destination was not announced, but it is understood that he is going to make another inspection of the coast to see if French neutrality is being enforced.

**Provisions for Russian Fleet.**  
Hong Kong, May 22.—According to information received here today the 150 deeply laden junks (presumably loaded with provisions for the Russian fleet) which were sighted May 16, 120 miles off Cape St. John, by a correspondent who proceeded from here to Kanatchan bay north of the island of Hainan, have left the vicinity of Cape St. John, and it is added are probably seeking to effect a junction with Admiral Rojestvensky's fleet.

**Matrimonial Bureau Raided.**  
Chicago, May 22.—Stored away in a small room at the Harrison street police station are 45,000 letters—nearly a patrol wagon full—which were seized in a raid made by the federal authorities and the police on the "Belmont Corresponding Club," 11 8th street. With the alluring literature seized the detectives placed under arrest Oscar L. Wells, president of the institution and known to the police all over the country as the "king of matrimonial agencies." "Doc" Moses, a constable, and H. Feicher.

**Off for the Arctic.**  
London, May 22.—The steamer Terra Nova has sailed from London for Tromsø, Norway, whence she will go to Franz Josef Land in search of the expedition headed by Anthony Fiala, of Brooklyn, on board the steamer America, fitted out by William Zeigler of New York for the purpose of attempting to reach the north pole by way of Franz Josef Land. The Terra Nova is coalled and provisioned for eighteen months. Drs. Samuel Jackson and Frederick M. Mount are among those on board.

## 30 YEARS IN PRISON FOR WOOD.

Man Possessed by "Familiars" Pleas Guilty of Murder.  
Somerville, N. J., May 22.—George H. Wood, of New York, pleaded guilty of murder in the second degree in shooting George Williams, a grocer, of Watchung, on Feb. 2.  
Wood was sentenced to 30 years in prison. At the opening of the trial

**GEORGE H. WOOD.**  
he had pleaded not guilty of murder in the first degree and his counsel had declined offer by the prosecution to accept a plea of guilty of murder in a lesser degree. That plea was withdrawn soon after court opened and the plea of guilty substituted.  
Wood claimed that his crime was committed under the influence of an evil spirit.

## TAX FRAUDS UNCOVERED.

**Officials of San Francisco Have Been Fleecing Citizens.**  
San Francisco, May 22.—The Chronicle today says that a scheme which has been in operation in the tax collectors' office for many months has just been uncovered by which nearly a million and a half dollars' worth of property has been secured for little more than \$100,000.

The victims are the city's taxpayers who are charged in some instances, it appears, wrongly with delinquencies. The profits have gone to a ring of tax scalpers who were assisted in every possible way by the alleged defaulting tax collector Smith, and his subordinates in office. Records have been manipulated to keep the truth from coming out, and many poor people have had the title to their homes placed in jeopardy, without so much as knowing that a shortage is charged against them, a thorough investigation will be made at once into the matter to develop, if possible the extent to which these irregularities have been carried on.

## HARVARD AND YALE MEET.

**For Annual Contests of Field and Track Sports.**

New Haven, Conn., May 22.—Harvard and Yale athletes will meet at Yale field this afternoon for the thirtieth annual contests on track and field. Twice in the past since the competition for the present cup began in 1906, after Harvard had won the first cup series of nine contests.  
For the permanent ownership of the dual cup, Harvard needs three more victories and Yale two. The outcome of today's contest seems uncertain because of the crippled condition of Yale athletes. It was said this morning that neither McLanahan, Cates, Torrey, Lowe, Milow, Porter, Jack nor Bear would be able to compete, all being on the hospital list. All the Harvard men were reported in good condition.

## Louisiana Opera House Burns.

New Orleans, La., May 22.—Fire which broke out early today in the opera house at New Iberia, La., destroyed the Vendome theater and other buildings, with an estimated loss of \$51,000. The opera house was used for a high school entertainment last night, but the fire started after the audience was dismissed. Besides the theater, DeHane Landy's wholesale liquor house, Henry Kramer's livery station, Jules Dragfus' warehouse and some smaller buildings, were destroyed.

## THE CHICAGO STRIKE HAS BEEN SETTLED

Teamsters Agree To Terms Of  
Employers Association.

### MANY DRIVERS ARE REINSTATED

Express Companies, However, Refused To Take Back Men Who Joined in the Sympathetic Strike.—Number of Men on Strike Totals 3,332.

Chicago, May 22.—Conclusion of peace of the teamsters' strike waited today upon the efforts of President C. P. Shea and associates agreed to secure terms of some for the former employees of the railway express companies, all other men in controversy having apparently settled. At the solicitation of the union leaders the express company representatives here had agreed, however, to communicate with the offices in New York as to possible concessions, this phase of the situation threatened today to prove a rock upon which possibly the peace plans might be wrecked. Anticipating a refusal by the New York officials of the express companies to modify the stand taken by Chicago representatives in this conference.

Labor leaders might endeavor to center a fight upon the express companies, lifting the ban from all other concerns, but definite steps in that direction were taken, however, pending a reply from the higher officials of the express companies.

Opinions vary as to the number of strikers who will be reinstated now that the teamsters' strike practically is ended, but the general belief is that 35 per cent is a conservative figure. This estimate comes largely from the union sources. The employers maintaining that the employers' teaming company was a permanent institution, placed the percentage of strikers who would get their old places back at even a lower figure.

The employers teaming company will employ no union men at all.

The total number of men on strike at the end, including helpers, is 3,332. According to Attorney Levy Mayer, of the Employers' association, a union committee today accepted peace terms proffered by the Employers' association. This announcement was made by Attorney Mayer during a conference of the Employers' executive committee. Formal announcement that the strike is off, he said, was expected in a short time.

Confirmation of Mr. Mayer's statement was obtained from a labor official who, however, declined to be quoted by name. President Shea was a visitor today at Attorney Mayer's office.

### Will Not Re-Instate Men.

New York, May 22.—In the absence of Senator Platt, president of the United States Express company, Vice President Crosley said today:  
"Our company will reinstate none of the men in Chicago who with no grievances against their employers went out on a sympathetic strike."

### Longshoremen Form Union.

Seattle, Wash., May 22.—The independent longshoremen in convention in Seattle have formed the Pacific Coast Association of Longshoremen. While a majority of the members admit that they are compelled to withdraw from the national longshoremen, marine and transport workers' association, the move has come about in order that the longshoremen might be benefited. It is claimed that the national association is now involved in a ruinous conflict with the seamen, to which they are opposed. The independent association is now composed of about eighty-eight unions.

### Exposition Subscribers Sued.

St. Louis, May 22.—More than 300 suits were filed today by the Louisiana Purchase Exposition company to collect stock subscriptions aggregating \$30,000. Among the suits was one against former Mayor Henry Siegenheim for \$5,000 which, it is alleged, he subscribed.

## VISITORS AT COLUMBUS.

A Large Crowd of Manufacturers See Big Cotton Mills.

Columbus, Ga., May 22.—Ninety-three members of the National association of Manufacturers spent a day in Columbus, coming to the city in a special train over the Southern railway, at the close of the convention in Atlanta.  
The train arrived at noon, and was met by a large committee of Columbus citizens. The visitors were carried over the city by Pullman car, trolley car and carriages, several different trips being made. The tour of the city and the various entertainments occupied 8 hours' time.

The visitors were most favorably impressed with Columbus, the great waterpower of the Chattahoochee river at this point and its electrical development attracting special interest. The program of entertainment culminated at Wildwood park, where dinner was served late in the afternoon. Quite a number of talks were made by local citizens, and by the manufacturers.

### Employing Printers Meet.

Atlanta, May 22.—The open shop was endorsed and the 8-hour day condemned by the employing printers of the southeastern states, who met in convention at the Aragon yesterday, and affiliated with the International United Typothetae. The convention assembled at 10 o'clock in the morning in the main dining room of the hotel, which had been turned over to the visitors for meeting purposes. The entire session was executive, none but employing printers being admitted to the meetings. Those present, however, stated that nothing but perfect harmony existed and that the adoption of the resolutions condemning the 8-hour day and endorsing the open shop were unanimously adopted.

### Gamblers' Outfits Destroyed.

Macon, Ga., May 22.—Judge Felton told Sheriff Robertson to destroy the gamblers' paraphernalia that was recently seized by him under orders of the grand jury. The judge said that if the gamblers undertook to sue for the recovery of the property they could not prove that under the law it is property, as it is kept in violation of law and is not taxed as property. The sheriff said he would do as the court suggested. Judge Felton said that the last two grand juries had done more to stamp out the gambling evil in this county than all other grand juries combined, and he paid a high tribute to the grand jury as an influence and power for the correction of evil.

### Will Prosecute Policemen.

Nashville, May 22.—During the week policemen have been shot by negroes, two of whom have died, two of the negroes were killed while endeavoring to elude the officers. Last night Ed McKnight was brought to the city hospital with a bullet in his back. He was working out a fine of \$5 on the streets and in attempting to escape was shot down by a guard. He will die. A mass meeting held here by prominent negroes a league was formed to prosecute the policemen charged with killing the negroes. One of them slipped up behind the negro and killed him.

### Episcopalians to Meet in Selma.

Anniston, Ala., May 22.—The council of the Episcopal church in Alabama adjourned, after selecting Selma as the meeting place next year, to meet May 16. Rev. Stewart McQueen, Chairman of the standing committee, was called away from the meeting, and before going stated that the letter published as addressed to him under date of April 10, at Birmingham, which is the resignation of H. C. Pearson, of Birmingham, as a member of the standing committee, in an open letter, had not been received in the committee.

### Uprising in Balkans.

Vienna, May 22.—It is reported from Belgrade, Serbia, that 2,000 Albanians have surrounded the town of Guillian, Albania, and are threatening to massacre the Serbian population of that place. There are 300 Turkish troops at Guillian and reinforcements are expected from Uckah.

## APPEAL IS MADE TO ROOSEVELT

President Requested To Look  
Into Equitable Trouble.

### TO INSTITUTE AN INVESTIGATION

The Recent Beef Trust Investigation and Coal Strike Commission Cited as Precedents—No Word Yet From The President.

New York, May 22.—President Roosevelt has been requested to take cognizance of the situation that has been brought about by the Equitable Life Assurance Society trouble and to institute a national investigation of the insurance business as it is now conducted. The inquiry into the beef trust and the present Standard Oil investigation are quoted as precedents.

This request was made by W. F. King, former president of the Merchants' association of this city, who has written the president as a policy holder in several companies, asking that such an investigation be made under the interstate commerce law that should be deemed not practicable, Mr. King asks the president to appoint a national commission on the lines of the coal commission that settled the anthracite strike to make an inquiry and report. "In case the president decides that he has no jurisdiction," said Mr. King today, "it is my purpose to form a committee prior to the convening of congress in autumn to start an agitation in every state in the union, by sending out literature to every merchant and manufacturing concern, to the number of 151,000, having a mercantile rating of \$50,000 and above. I will ask these men not only to interest themselves, but their employees in petitioning their members of congress and senators providing the president has not the power to make a thorough investigation, and put these great insurance corporations under governmental control."

### Soldiers Leave for the Philippines.

Atlanta, May 22.—The sixteenth regiment of infantry, U. S. A., which has been doing garrison duty at Fort McPherson for several years, left Saturday morning at 9 o'clock for San Francisco, from which point it will sail May 31 for the Philippines, where it goes to relieve the Seventeenth Infantry, which later comes to Atlanta for post duty. The regiment left in three sections over the Seaboard Air Line. This road will deliver the soldiers to the Frisco system in Birmingham, Ala. The Frisco company will convey them to Kansas City, from which place the Santa Fe route will carry them to San Francisco. The trip will occupy six days, the regiment arriving in San Francisco on next Friday morning.

### Big Diamond Sent by Mail.

London, May 22.—The great Cullinan diamond, valued at over \$2,500,000, was recently sent by registered post from South Africa to London for three shillings. It was quite an ordinary looking packet that was handed in at the Johannesburg postoffice shortly before the English mail left the mining center. Nobody but the directors of the company in South Africa knew the contents.

### Found Them All Dead.

Kalamazoo, Mich., May 22.—Charles Gilbert, 39 years old, formerly of Rochester N. Y., but now of this city, returned from the Philippines and was informed that his wife, father and mother were dead. The man, crushed by the terrible news walks about crying. While in the army his wife gave birth to a girl which he saw for the first time yesterday.

### Turbine Engines for Warships.

Glasgow, May 22.—The British admiralty has invited engineering firms here to make tenders for the construction of turbine machinery intended for one of the new battleships to be built in the government dock yards. The specifications demand that the engines develop 20,000 horse power.

## DR. LINDSAY'S IMPRESSIVE SERMON

Methodist Church Was Crowded  
to Hear This Eminent Divine.

SUBJECT WAS ON EDUCATION

Delivered the Commencement Sermon  
for the East Florida Seminary and  
Brought Out Many Fine Points Which  
Were Eloquently Rendered.

One of the largest and probably most  
intelligent aggregations assembled at  
Kavanaugh Methodist Church for sev-  
eral years was the congregation which  
greeted Rev. W. C. Lindsay, the emi-  
nent divine of Ocala, Sunday morning,  
the occasion being the commencement  
sermon of East Florida Seminary,  
which was to be delivered by Dr.  
Lindsay.

In addition to the regular congrega-  
tion of the Methodist church, which is  
possibly the largest in the city, there  
were the cadets and young lady stu-  
dents of the Seminary and the congrega-  
tions of the First Presbyterian and  
First Baptist churches, as well as  
friends of the churches, with the result  
that a half hour before the hour an-  
nounced for service it was difficult to  
procure a seat.

Dr. Lindsay took his text from Acts  
22:3, "Brought up in this city at the  
feet of Galileo," from which he deliv-  
ered one of the most eloquent and most  
impressive discourses ever heard in this  
city.

The sermon was naturally an educa-  
tional one and touched upon educa-  
tional lines. For forty minutes the  
speaker commanded the closest atten-  
tion; and at the conclusion of the ser-  
vice was warmly congratulated.

In part Dr. Lindsay said:  
"It used to be the boast of a great  
many backwoods preachers that they  
had never 'rubbed their backs against  
college walls.' I have heard of them  
calling Onesimus 'One Simus,' etc.  
There was in those days a prejudice  
against learning. Many seemed to  
think that as people grew in power,  
and held deep, broad and clear views  
of things mundane, that they lost fer-  
vor and piety. It was a disgrace for a  
minister ever to have looked into a  
Greek or Hebrew book.

"Of all the men who ever lived,  
Paul's influence has been the mightiest  
in shaping the destiny of the world. In  
carrying out far-reaching plans for the  
conversion of men and the upbuilding  
of Christ's kingdom he stands head and  
shoulders above all other apostles. His  
power and efficiency as a Christian  
worker was due in a large measure to  
his superior education and intelli-  
gence—to the fact that he was brought  
up at the feet of Galileo, the most re-  
nowned Jewish educator of that day.

"A man need not blush today to con-  
fess that he has 'rubbed his back  
against college walls;' yet a ten-  
dency—and I believe a growing ten-  
dency—to undervalue thorough educa-  
tion, is quite as common today. In the  
rush and bustle of our strenuous life,  
too many are satisfied with a superfi-  
cial knowledge of things. Some look  
at the question wholly from a stand-  
point of dollars and cents. They forget  
that money is not worth living for;  
that it can never satisfy the soul and  
make a man happy. It is foolish-  
suicidal—to neglect and dwarf the  
mind in order that the pocket-book  
might be filled and the bank account  
swelled. There are some things more  
valuable than money, and education is  
one of them. It brings with it advan-  
tages that are beyond all price. Let us  
consider some of them:

"A good education broadens one.  
Narrow-mindedness is one of the worst  
things in the world. In all ages it has  
been the enemy of progress.

"A liberal education tends to soften  
human nature. It enlarges and en-  
riches the mind; it expands the soul.  
Under its influence the mean, sordid,  
selfish spirit is cast out and nature be-  
comes generous and noble. If you  
doubt this, glance at the history of the  
nations, and even the church. As edu-  
cation becomes more general among  
the masses, wars grow less frequent.  
People find something better to do  
than to set out to butcher one another.  
Courts of arbitration take the place of  
swords and cannon as a means of set-  
tling disputes.

"By withholding education from the  
masses, Romanism has cast her with-  
ering blight over Spain, Italy, Austria,  
Ireland and all other nations where  
her influence is predominant. As edu-  
cation becomes more general, and of  
a higher order, the power of Rome is  
broken. Free discussion, a free press  
and free schools take the place of a

## THE CHANGE OF LIFE INTELLIGENT WOMEN PREPARE

Dangers and Pain of This Critical Period  
Avoided by the Use of Lydia E. Pink-  
ham's Vegetable Compound.

How many wo-  
men realize that  
the most critical  
period in a wo-  
man's existence  
is the change of  
life, and that the  
anxiety felt by  
women as this  
time draws near  
is not without  
reason?

If her system is in a deranged con-  
dition, or she is predisposed to apoplexy  
or congestion of any organ, it is at this  
time likely to become active and, with  
a host of nervous irritations, make life  
a burden.

At this time, also, cancers and tumors  
are more liable to begin their destruc-  
tive work. Such warning symptoms as  
a sense of suffocation, hot flashes, diz-  
ziness, headache, dread of impending  
evil, sounds in the ears, timidity, pal-  
pitation of the heart, sparks before  
the eyes, irregularities, constipation,  
variable appetite, weakness and inqui-  
tude are promptly headed by intelli-  
gent women who are approaching the  
period of life when woman's great  
change may be expected.

Lydia E. Pinkham's Vegetable Com-  
pound is the world's greatest remedy  
for women at this trying period, and  
may be relied upon to overcome all dis-  
tressing symptoms and carry them  
safely through to a healthy and happy  
old age.

Lydia E. Pinkham's Vegetable Com-  
pound invigorates and strengthens the  
female organism, and builds up the  
weakened nervous system as no other  
medicine can.

Mrs. A. E. G. Hyland, of Chester-  
town, Md., in a letter to Mrs. Pink-  
ham, says:

Dear Mrs. Pinkham:—  
"I had been suffering with falling of the  
womb for years and was passing through the  
change of life. My womb was badly swollen.  
I had a good deal of soreness, dizziness,  
headaches, and was very nervous. I wrote  
you for advice and commenced treatment  
with Lydia E. Pinkham's Vegetable Com-  
pound as you directed, and I am happy to say  
that all those distressing symptoms left me,  
and I have passed safely through the change  
of life a well woman."

For special advice regarding this im-  
portant period women are invited to  
write to Mrs. Pinkham for advice. It  
is free and always helpful.

priestly censorship; instruction and  
persuasion take the place of the rack  
and the thumbscrew.

"Every young man and woman  
should determine, however great the  
difficulties in the way, whatever the  
cost in self-denial and hard work, to  
secure a liberal education.

"The strenuous life has crowded out  
the simple life; Roosevelt is greater  
than Wagner. It may seem feverish  
to the young man or the boy to rush  
into business and get rich quickly—  
that so far as money-making is con-  
cerned, the time spent in getting an  
education is thrown away. He may  
tell you of some college graduate  
dying a pauper; he may remark that  
he never heard of a Ph. D. being a  
millionaire. I have never heard of  
one, and I do know that some college  
graduates die paupers; but you will  
find ten thousand ignoramus among  
the destitute for one educated man.  
You may find a few ignorant million-  
aires, but the great majority of the  
well-to-do and prosperous are intelli-  
gent, educated people.

"Boys and girls, if you want to make  
success sure, get an education. It  
gives you a keener mind and a clearer  
head. It fits you for the personal  
management of an extensive business.  
Many a one has swamped for want of a  
disciplined mind and a clever head  
with which to manage his affairs. It  
promotes a habit of prudence and econ-  
omy.

"A good education also enables you  
to command higher wages for your  
work. The cashier in the bank may  
have to practice more self-denial at  
first than the man who labors for a  
dollar and a half a day on the street;  
but the cashier will come out in the  
end, because he improves his hours in  
the evenings, when the laborer is but  
enjoying a portion of his day's earn-  
ings.

"When sickness or the infirmities of  
age come upon him, the laborer who  
has 'lived well' at \$1.50 a day, will be  
a pauper, while the other man, the  
cashier, who has worked and studied  
faithfully, receives a good salary, lives  
in a comfortable home, dresses his  
family comfortably and educates his  
children, and lays up enough money to  
keep himself and his family through

sickness and old age. That is the re-  
sult of education.

"The people who hold the power and  
the wealth of every land are the edu-  
cated and the intelligent. The ignor-  
ant in all ages have been the brewers  
of wood and the drawers of water for  
the intelligent, and what has been  
true in the past will be true in the fu-  
ture."

Dr. Lindsay said many things of  
deep interest to his hearers, and his  
sermon will long be remembered by  
those present. He proved himself a  
fine speaker, and the management of  
the Seminary felt complimented that  
he had consented to deliver the com-  
mencement sermon for 1905.

### Saved by Dynamite.

Sometimes a flaming city is saved by  
dynamiting a space that the fire can't  
cross. Sometimes a cough hangs on so  
long, you feel as if nothing but dynamite  
would cure it. Z. T. Gray of Cal-  
houn, Ga., writes: "My wife had a very  
aggravated cough, which kept her  
awake nights. Two physicians could  
not help her; so she took Dr. King's  
New Discovery for consumption, coughs  
and colds, which eased her cough, gave  
her sleep, and finally cured her." Strictly scientific cure for bronchitis  
and lagrippe. At drug stores, price 50c  
and \$1.00; guaranteed. Trial bottle  
free.

### Obituary.

Died, at his home in Island Grove,  
May 8th, 1905, of heart failure, William  
H. Dupree, aged sixty-nine years.

In the death of this warm-hearted  
gentleman the community has sus-  
tained a sad loss. He was a man of  
marked individuality and strong char-  
acter, and what he was as friend and  
neighbor is known to all. No man ever  
enjoyed more fully the confidence and  
esteem of a community than he did. A  
kind father, a staunch friend and good  
neighbor who was always ready to  
oblige any one who asked a favor of  
him, his death is a sad blow to all.  
He leaves three children to mourn his  
loss, but may they remember in this  
time of trial that "Earth has no sorrow  
that Heaven cannot heal," and may  
this sudden death of our friend serve  
as an admonition to us all "To be ye  
also ready, for in such an hour as ye  
think not the Son of Man cometh."

A FRIEND.

### Juggling With Dynamite

Is no more dangerous than to neglect  
kidney disorders. Foley's Kidney Cure  
corrects irregularities and has cured  
many severe cases after other treat-  
ment has failed. It builds up the worn  
out tissues and restores health and  
vigor. "I was troubled with kidney  
complaint for about two years," writes  
A. H. Davis of Mt. Sterling, Iowa,  
"but two bottles of Foley's Kidney  
Cure effected a permanent cure." Sold  
by J. W. McCollum & Co.

### Man Stabbed to Death.

Carrollton, Ga., May 22.—Harvey  
Bennett, who was stabbed in the  
breast while engaged in a difficulty on  
the night of May 6 at the home of  
Henry Blanks, near Bowden, in this  
county, died at the home of George  
Downs. Henry Blanks and his brother  
Hill have been arrested and placed  
under bond, pending a investigation of  
the matter.

### Warning.

You cannot have good health unless  
your kidneys are sound, for the kidneys  
filter the blood of impurities which  
otherwise act as irritating poisons and  
break down the delicate organs of the  
body and cause serious trouble. If you  
have kidney or bladder trouble and do  
not use Foley's Kidney Cure, you will  
have only yourself to blame for re-  
sults, as it positively cures all forms of  
kidney and bladder diseases. Sold by

## SKIN DISEASES SPEAK FOR THE BLOOD

Skin Diseases speak for the blood and tell of the acid-laden, poison-  
ous condition of that vital fluid, and of its effort to throw off and rid the  
system of the poisons and waste matters that have accumulated in it. Ecz-  
zema, Tetter, Acne, Salt Rheum, Psoriasis, Boils and diseases of this type  
are all caused by a weakened and polluted blood circulation, and though they  
may have lain dormant in the system during the cold weather, at the coming  
of Spring and Summer, when  
the blood is reacting and mak-  
ing extra efforts to expel all  
morbid and poisonous matter,  
they make their appearance.  
External remedies cannot  
cure; they soothe and give  
temporary relief, but often  
clog the pores and glands, and  
the poison causing the trouble is thus shut up in the system to break out  
afresh later on. S. S. S., a purely vegetable blood remedy, cures all skin  
diseases by going down into the circulation, driving out all poisons and waste  
matters, strengthening the blood, leaving the skin  
soft and smooth, and building up the entire system  
by its tonic effect. S. S. S. cures Nettle Rash, Poi-  
son Oak and all skin diseases that enter the system  
through the pores and glands, as well as those that  
have their origin in the blood. Book on Skin Diseases and any advice wished,

In 1896 I experienced at times patches on the in-  
side of my hands that itched and burned, causing  
much discomfort. I was convinced I was afflicted  
with a type of Eczema. I consulted several physi-  
cians, and used several external applications, re-  
ceiving but slight temporary relief. I decided to  
try S. S. S., and soon I found myself entirely cured.

## COMPANY A WINS IN DRILL CONTEST

FINE SHOWING BY THE CADETS

Exciting Time at East Florida Seminary Campus—Ladies and Gentlemen Turn Out in Goodly Numbers—Mrs. Denby's Concert.

There was a large audience present Monday afternoon, consisting of ladies and gentlemen of the city and many from other cities, to witness the drill contests between the two companies of cadets of the East Florida Seminary, and considerable enthusiasm was manifested.

The judges were Lieut. J. W. Blanding of the Gainesville Guards, Major Graham of the Seminary Cadets and Major Floyd of the Seminary faculty. Shortly after 3:30 p. m. Company B marched on to the parade grounds with Capt. Zewadski and Lieutenants Cohen and Richardson in command of the twenty-four men for the company contest. The company presented a very creditable appearance, responding to the commands with quick movements and pleasing accuracy. When the company had finished it was conceded that the boys had made a favorable impression.

Next to march the ensanguined campus was Company A, in command of Captain Whitney, and Lieutenants Whittaker and Roux, with twenty-four cadets of hardy looking young men, who stepped up promptly and looked like winners from the start. They went through evolutions very promptly.

ly and their marching was good, while many of the movements were smooth. When they left the field they were put down winners, and the score proved it, as out of a possible hundred they got 87 58, while Company B had but 73 35.

Both companies reflect credit on the thorough work at the Seminary, and Captain Hughes is entitled to a good share for his thoroughness. The campus was not very smooth for drilling, which made some difference in the maneuvers.

Next on program was the individual drill, and there was a large number of contestants, who were determined to do their best to capture the prize medal. Some of the more sanguine, however, were doomed to disappointment, as the prize was awarded to Private S. S. Smith of Company B, a sophomore, who lives at Arredondo.

The prize contests were all indulged in with enthusiasm, and the most friendly feeling prevailed. There was perfect order during the entire time, and the whole affair reflected credit on the management and showed a most earnest effort on the part of the contestants to win if possible.

Captain Zewadski of Company B resides in Ocala and Captain Whitney of Company A in Fernandina. Both are very clever commanding officers and are respected by their fellow students in the Seminary.

### Evening Program.

The evening exercises were by Mrs. Denby's musical class. The function was held in the Seminary hall and was well attended. An excellent program, the same as published in The Sun of Sunday, was well rendered, which showed ability of both teacher and pupils.

## FLORIDA'S STATE LAW FABRICATORS

Hold a Very Short Session of the House Saturday.

HOUSE GETS MORE WORK

Bill to Define the Duties of the Attorney-General—Ice Trust Bill on Its Third Reading—New Hours for the House.

Tallahassee, May 22.—In the House Saturday there was considerable business, besides the passage of the Buckman bill. The ice trust bill was passed without a dissenting vote.

A bill was introduced by Mr. Persons of Columbia "to define the duties of the attorney-general and State's attorneys and to prohibit the board of internal improvement fund and the railroad commission and all other State boards from employing special counsel." The bill was discussed at some length and finally passed to its third reading.

A resolution offered by Mr. Johnston, "that commencing on Monday the hours for the meeting of the House shall be from 9 a. m. to 1 p. m., and from 3 p. m. to 6 p. m. daily," was adopted.

Representative Persons of Lake City, in urging the Ice Trust bill, said that since the election, the Senator from Columbia has received "a great big chunk" of ice for 5 cents, while just across the way a poor widow, who had no voice in the Legislature, received, for the same sum, a piece so small that it slipped out of the ice tong three times before they got to the house with it.

It is purely vegetable, perfectly harmless, and should you be a sufferer from disease, you will use it if you are wise. R. N. Andrews, editor and manager Cocoa and Rockledge News, Cocoa, Fla., writes: "I have used your Herbine in my family, and find it a most excellent medicine. Its effects upon myself have been a marked benefit. Sold by W. M. Johnson."

### Killed Self in Lodge Room.

Cartersville, Ga., May 22.—In the Knights of Pythias hall, where it had evidently lain for several hours, the body of Henry A. Chapman was found by members of the local lodge of Odd Fellows, assembling at the hall, which is used by several of the fraternal orders. Near the body lay a pipe and a 32-caliber pistol. A partly filled glass of water was also near and Mr. Chapman's hat lay on one of the officers' stands and his coat, shirt and collar and tie lay upon a chair. Every indication pointed to one of the most deliberately planned suicides that has ever been known in this section.

If the merits of the schools are taken into consideration, East Florida Seminary need have no fear of being molested.

The establishment of new industries in the South goes steadily on from week to week. The Solid South is solid for business.

Those Jacksonville fellows who undertook to let down the Barrs with that new charter, found J. Murdoch on hand ready to put them up and he is still in the fold.

Some of the leading citizens of Missouri have become aroused regarding the "toting of pistols" and have declared they will break up the practice if they have to shoot every man they find carrying concealed weapons.

The Chicago strikers have finally concluded to cease hostilities and have not gained sufficient to pay but precious little for the time lost. The strike of the typographical union for eight hours' labor and ten hours' pay is the next on the program.

The Sun labors all the time for the best interests of Gainesville and Alachua county. Some may find fault because it does not do more. But, dear reader, when you stop to think the matter over, ask yourself what you have done! Nor can it do as every citizen desires, as discretion is many times the better plan.

The Legislature, while working on educational lines, might settle the question in regard to spelling a few names of counties towns, etc., in the State. Hillsboro county is on the map, yet many papers spell it "Hillsborough." Suwanee county is on the map, but is often spelled with two "n's," while Bradentown is spelled without the "l" by the local papers.

It is gratifying to the people of Gainesville to know that the East Florida Seminary located in this city has won such favorable comment from the committee sent here by the Legislature to investigate its conduct. It also received a flattering notice from the United States army officer sent to inspect its military branch. The school is in the hands of conscientious Christian gentlemen, who are able educators, thorough in deportment. They have done their part with credit. The Seminary deserves everything asked for it.

Governor Warner of Michigan has signed a bill making an important change in the libel law of that State. It permits the defense to introduce evidence that the plaintiff has recovered damages previously for the publication of the same article or one citing the same statements. When persons finding themselves aggrieved by articles published in several newspapers go to bring suits by the wholesale in an attempt to collect an immense amount of damages, the bill permits the defendant newspaper to present such facts to the jury. The act is made to apply to all pending suits.

## A RESPECTED INSTITUTION.

There is nothing connected with the East Florida Seminary but what reflects for the uplifting of the young ladies and gentlemen who are students of that institution, and goes to the making of better men and women of the students who are in attendance and who are there for the purpose of acquiring knowledge. The faculty is worthy any college in the land—earnest in its efforts to impart a fund of wholesome knowledge that cannot fail to be of use in after years, if properly applied.

Backed by the best citizens of Gainesville, endorsed by all the churches, the Seminary has almost become a part of their being, and it is owing to its existence that many owe the discipline of our young men who have enjoyed the advantages it offers for an education.

Particularly noticeable was the interest manifested on Sunday last, when the Rev. W. C. Lindsey of Ocala delivered the baccalaureate sermon to the graduating class, the large auditorium of the Kavanaugh Methodist Church being filled to its utmost capacity, although the day was oppressively hot.

There is a general interest manifested for the Seminary on account of its being so many years in our midst and the steady and healthy growth it has made along with the advancement of the State, and it is winning friends every year and making rapid steps to the front, an expansion, if you please, along educational lines, which should command the respect of every true citizen of Florida.

## THE STATE PRESS.

Lake Butler gets its latest legislative news from The Gainesville Daily Sun, which reaches us just ten hours ahead of the Jacksonville papers. There are no spots on The Sun.—Lake Butler Star.

The Governor's veto of that charter bill may be awfully bad on the political grafters, but in our humble judgment he has done the very best thing possible for the city.—Jacksonville Floridian.

A revivalist asked all those who wanted to go to heaven to stand up. All stood up but one man. "Why don't you stand up?" he was asked. "Well," the man said, "I'm pretty well satisfied with Crystal River."—Crystal River News.

## Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We offer One Hundred Dollars Reward for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure.

When it is appreciated that the Panama canal, before it is completed, will cost the people of the United States approximately \$200,000,000, or an average of \$2.50 for every man, woman and child in the country, it is probable that most people will rise up and call Secretary Taft blessed for adopting a policy which promises to save a considerable percentage of the expense, but in the meantime the stand patters and the protected industries are muttering deep thunder and are sending protests to the White House by the bushel, while the stand pat secretary of the treasury is writhing in his mahogany chair. The beauty of the situation is that even if Congress enacts a law compelling the purchase of all materials and machinery for the canal in the United States the people will have been taught a great object lesson by the action of Secretary Taft and one that it will be difficult for the protectionists to efface.

The agitation for better wages to teachers has reached our national capitol. In the argument in Congress on the district appropriation bill it was pointed out that the educational interests were not properly cared for and that the pay of the teachers was entirely too low. Champe Clark of Missouri said that "more money was being paid Washington policemen to crack the skulls of the people than was paid to school teachers to improve what was in the skulls."

## \$5,000

Reward will be paid to any person who can find one atom of opium, chloral, morphine, cocaine, ether or chloroform in any form in any of Dr. Miles' Remedies.

This reward is offered because certain unscrupulous persons make false statements about these remedies. It is understood that this reward applies only to goods purchased in the open market, which have not been tampered with in any way.

Dr. Miles' remedies cure by their soothing, nourishing, strengthening and invigorating effects upon the nervous system, and not by paralyzing and weakening the nerves as would be the case if these drugs were used.

For this reason Dr. Miles' Anti-Pain Pills are universally considered the best pain remedy. "I have suffered for 25 years with severe pains in my head, heart and back, and have tried everything I could get and could not find any relief until I got a box of Dr. Miles' Anti-Pain Pills. I suffered as long as 12 hours at a time with such severe pains that I feared I would lose my mind. The Anti-Pain Pills gave me relief in from 10 to 20 minutes. I do not have to use Morphine any more. I wish you would publish this so that other sufferers may find relief."

R. F. D. No. 6, Salem, Ind.  
Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails he will return your money. 25 doses, 25 cents. Never sold in bulk. Miles Medical Co., Elkhart, Ind.

## GAINESVILLE IS A GROWING TOWN

Census Shows Tremendous Increase  
Within Past Five Years.

POPULATION IS NOW 5,254

Shows an increase of 1,621 Over Government Census of 1900, and the City Still Increases—Commercial and Manufacturing Interests Great.

Gainesville is growing and it is growing fast. Jesse E. Burtz, who is compiling the directory for the city of Gainesville, has completed his work of the residential section of the city, after a long and tedious task, and finds that the population of the city is 5,254. Of this number 2,825 are white and 2,429 are colored.

This shows a marked increase over the government census of 1900, which gave the city a population of 3,633. The present census includes the territory embraced by the new charter, which takes in all of South Gainesville, West Gainesville, East Gainesville beyond the Seaboard Air Line Railway, and over half of North Gainesville. The compiler has exercised every effort to secure the names of all residents in this territory, and feels reasonably sure that he has covered the field thoroughly.

The taking of this census and its result shows a great thing for Gainesville. It shows that in four years the city has gained a population of 1,621, which is better in proportion than any city in the State can show in proportion.

Gainesville is growing every day. The real "boom" did not begin until the Bible Conference and Chautauqua was established and the county went "dry," which seemed to center the interests here. Many people have since come here and made homes and gone into business, while others have moved their families here on account of the excellent school advantages.

In all, Gainesville from a commercial, educational, and manufacturing standpoint, is one of the most important cities in the State, and is attracting new residents every day.

Mr. Burtz expects to have his directory before the public in June, and this work will show the development of the city and the prosperity of its people.
